LEE DISTRICT SUPERVISOR

Board Matter

December 6, 2011

Madam Chairman—the Stony Brook Apartment complex that includes 204 multi-family dwelling units in several buildings spread over more than 10 acres has recently been totally renovated. (This complex was formerly known as the Buckman Road Apartments.) Stony Brook provides critically needed affordable housing and the recent renovations, along with the addition of a community center, have greatly improved the appearance and livability of the area.

What is unique about this recent renovation is the work that the owner has done to improve the site. Attached to my Board Matter is a list of all the improvements that were made, including electrical conservation, stormwater management, high performance building attributes, and green education programs.

Therefore Madam Chairman—I ask for unanimous consent to invite the owners of the Stony Brook Apartments to the January 10 Board of Supervisors meeting to recognize them for their environmentally responsible renovation and contributions to the Buckman Road neighborhood.
